FACTS ABOUT BLUE VALLEY STOCK

BLUE VALLEY NURSERIES varieties of fruits and flowers are especially adapted to the soil and climate of northern Kansas. We select them ourselves with this thought in mind, because the bulk of our sales are made in this territory. So, when you buy stock from us, you run no risk of getting varieties that are not suited to this section.

Our soil is most favorably suited to the development of an exceptionally good root system of both trees and plants. We are therefore enabled to produce stock of superior quality.

Our prices include prepaid postage on all small fruit plants and other stock not too large to go by Parcel Post, to any place in zones one and two. On stock too large to go by mail, we prepay freight charges on orders amounting to \$5.00 or more. For orders of less than \$5.00 (or for trees ordered by express), the purchaser to pay the transportation charges.

OUR GUARANTEE.

We guarantee all stock sent out by us to be True to Name, thrifty, sound, well rooted and to reach you in first class condition, and should any stock reach you otherwise, advise us at once, stating exact condition as we will cheerfully correct any error. But in no case shall our liability exceed the purchase price of the stock, and we assume no responsibility as to their growth or fruitfulness after acceptance by purchaser.

We are always glad to have customers come to nurseries and make their selections. Our packing season opens from March 25th to April 1st, and lasts thirty days.

Thanking you for past favors, we desire to remain,

Yours truly,

E. F. NEVINS & SON,
Blue Rapids, Kansas.
